

I recived disturbing news on the double standard that the FCC is sending & I'm not happy. New Jersey's 'Do Not Call' List in Jeopardy

The Federal Communication Commission is considering overturning New Jersey's 'Do Not Call' law because it is more stringent than the federal program.

Currently, New Jersey's 'Do Not Call' law is among the strictest in the country. As a result, many residents report almost a 100% drop in unsolicited sales calls. Now, the law is under attack from telemarketers who want the ability to call people despite the fact that they have signed up for the 'Do Not Call' list.

Governor Codey, who sponsored the law, is asking all New Jerseyans to visit the "Protect Do Not Call" web page and take a moment to file a comment with the FCC. Let them know if you think New Jersey's consumer protection laws should be weakened.

The last time I recall that the federal laws were made to be a guide line. Like a state does for it's counties. The idea is for their own laws to be made stronger or lessen them so it helps the communities & it's people. To weaken the rules on NJ. Are you interested in weakening your own.

To give back the money from the 92.3 toward Howard Stern? Are you for or against what is right. If people don't like to be disturbed & harrassed which is what we get here in NJ & don't like it no more than anyone else. You should observe our rights & if bussnesses don't like it. Make a site & find those that don't mind to be called, make one for those who don't care. I would prefer to leave thing the way they are it works & should be made a national example to be conidered if a state would like to adapt to one like our Do not call.
